## SUMMARY

Experienced UI Developer with over 6 years of expertise in designing and developing complex websites. Specializes in HTML/CSS, SASS, JS, jQuery, and responsive design to create visually appealing and functional user interfaces. Currently transitioning to become a Front-End Developer, with a focus on mastering new skills and technologies to create seamless and innovative web experiences. Combines technical proficiency with a keen eye for design to deliver user-centered solutions that exceed expectations.

## WORK EXPERIENCE

### UI DEVELOPER

GitSource Company (Saudi Arabia)

October 2022 to January 2023 (3 months)

- Contributed to the development and implementation of a complex website for version control system services with over 50 pages, featuring a highly interactive user interface that improved user experience and increased efficiency.
- Collaborated with team members to identify tasks, track progress, and communicate regarding issues and inquiries utilizing GitHub. Ensured that project goals were met through regular online meetings and effective communication.
- Developed and maintained remote work plans that included reports and schedules, and updated them regularly to reflect changes in the project and progress of the work.
- Delivered the website before the set deadline, resulting in high client satisfaction and positive feedback.

### UI DEVELOPER

Smart Vision Company (Yemen)

March 2018 to September 2018 (6 months)

- Developed seven websites into responsive and interactive platforms using HTML/CSS and JavaScript, resulting in increased user engagement and positive client feedback.
- Ensured optimal website functionality by conducting extensive testing and debugging, resulting in a smooth user experience.
- Collaborated with team members to plan and organize tasks using Trello, improving workflow and productivity.

## PREVIOUS EXPERIENCE

- Webpack
- PugJS
- PHP
- WordPress
- Angular
- Firebase

## LANGUAGES

- Arabic
- English

- Led regular meetings and discussions to ensure project progress and successful completion, resulting in the delivery of high-quality websites on time.

### UI/UX DESIGNER & DEVELOPER

Themeforest Platform (Online Platform)

*March 2017 to February 2023 (5 years, 11 months)*

- Created six visually appealing and user-friendly website interfaces that received positive feedback from clients and users.
- Developed fully-functional websites using HTML/CSS and JavaScript, resulting in high user engagement and satisfaction.
- Successfully managed and completed multiple projects independently, demonstrating exceptional project management skills.
- Utilized effective online communication channels to handle remote clients and maintain regular contact throughout projects.
- Proficiently identified clients' needs and translated them into high-quality designs, resulting in successful and satisfying project outcomes.

## EDUCATION HISTORY

### BACHELOR OF COMMERCE

Ain Shams University, 2018
